

NANDITO ANANDA GINTING

Bachelor of Information Technology

Medan, Indonesia | (+62)82274593774 | nanditoanandaginting@gmail.com | www.linkedin.com/in/nnditto0 | Portofolio

Summary

Fresh Graduate in Information Technology from Universitas Sumatera Utara (GPA 3.86) specializing in full-stack web development with a strong capability to integrate advanced machine learning and computer vision models into functional digital products. Proven track record of building scalable, minimalist web applications and engineering data-driven deep learning architectures for medical image classification. Drawing on my experience as an Interactive Systems Laboratory Assistant, I aim to leverage my cross-disciplinary technical skills to engineer robust, user-centric web solutions for innovative tech initiatives.

Education

Universitas Sumatera Utara

Medan, Indonesia

Bachelor of Information Technology, GPA 3,86/4.00

June 2026

- Recognized as Faculty Best Graduate
- Awardee of Beasiswa Prestasi 2024 - 2025
- Relevant Coursework: Computer Vision, Deep Learning, Web Development, UI/UX Design, Artificial Intelligence.

Experience

Information Technology Laboratorium Group Universitas Sumatera Utara (ITLG USU)

Medan, Indonesia

Laboratory Assistant and Teaching Assistant

February 2026 – June 2026

- Designed and structured a comprehensive 14 meeting curriculum for the Interactive Systems practical course, establishing a clear and effective learning progression for undergraduate students.
- Facilitated weekly laboratory sessions, guiding students through hands-on technical exercises, UI/UX best practices, and the core principles of interactive design.
- Provided real-time assistance and problem-solving support to students during practical assignments, ensuring smooth execution of technical tasks.
- Assessed student assignments, practical exams, and project submissions, delivering constructive feedback to improve their understanding of interactive system concepts.
- Maintained an organized and collaborative laboratory environment, fostering student engagement and active participation in technical discussions.

PT Telkom Indonesia, Gaharu Medan (MBKM)

Medan, Indonesia

Network Deployment and Project Supervision internship

September 2025 – December 2025

- Engineered the front-end architecture for "MOM Sync," a corporate web application designed to centralize and archive meeting minutes into a database for streamlined monitoring and evaluation.
- Built highly responsive and intuitive web pages, focusing on a clean, minimalist, and accessible digital product design to ensure the platform is extremely user-friendly for all staff.
- Actively participated in project evaluation meetings, collaborating closely with the broader team to track development progress, assess project outcomes, and align on technical objectives.
- Executed precise data entry and structured data organization using Microsoft Excel to maintain accurate operational records and support ongoing departmental projects.
- Collaborated closely with backend developers to ensure seamless API integration and effectively presented the strengths of the front-end architecture, demonstrating its responsive design and user-centric advantages to the broader team.

BPJS Ketenagakerjaan Medan Kota (MBKM)

IT Support and Staff Internship

Medan, Indonesia

March 2025 – May 2025

- Engineered and deployed a web-based chatbot integrated with the Gemini API to streamline internal workflows and improve information accessibility for employees.
- Designed and managed a MySQL database to store, organize, and retrieve knowledge-base files, significantly enhancing the chatbot's contextual response accuracy and intelligence.
- Developed tailored digital solutions and automated systems to simplify administrative processes and enhance overall operational efficiency.
- Performed accurate data entry and maintained database integrity to support daily information management and reporting tasks.
- Provided technical assistance and IT support, troubleshooting system issues to ensure uninterrupted day-to-day operations.

Organizational and Committee Experience

BEM Fasilkom-TI USU

Business and Partnership Staff

Medan, Indonesia

October 2024 – October 2025

- Bridged local MSMEs (UMKM) with the university community through targeted growth initiatives.
- Designed Instagram content and executed promotional campaigns to market MSME products directly to students.
- Managed the division's daily income and operational expenses transparently using Microsoft Excel.
- Increased sales and profit margins for partnered MSMEs through effective campus-level marketing.

Information Technology Christmas Event, Universitas Sumatera Utara (USU)

Head of Funding and Consumption Division

Medan, Indonesia

July 2024 – December 2024

- Directed team members and delegated specific tasks to ensure alignment with division objectives.
- Spearheaded high-profit fundraising initiatives to successfully meet the event's revenue targets.
- Tracked and managed the division's cash flow, income, and operational expenses using Microsoft Excel.
- Oversaw all work programs from planning to execution, ensuring operational success and target completion.

Projects, Certifications, and Skills

- **Project** (2026) [🔗](#): Build AI Asistant Chatbot With Langflow and Gemini API
- **Project** (2026) [🔗](#): Diabetes Identification using GhostNet and Mobile Vision Transformer V2.
- **Project** (2025) [🔗](#): Hydroponix Website, a web-based educational platform.
- **Project** (2025) [🔗](#): Minute of Meetings Website for Corporate Meeting Management.
- **Project** (2025) [🔗](#): Chatbot Using Gemini API integrated with MySQL.
- **Project** (2024) [🔗](#): Food Bridge Design App, GEMASTIK Competition.
- **Project** (2024) [🔗](#): Taniku Design App, Empowering farmers.
- **Certificaton** (2026) [🔗](#): IBM Skills Build - Built an AI Agent
- **Certificaton** (2025) [🔗](#): PT Telkom Indonesia Internship (MBKM)
- **Certification** (2025) [🔗](#): Google Arcade Certification
- **Certification** (2024) [🔗](#): IMILKOM USU - UI/UX Competition
- **Certification** (2024) [🔗](#): Dicoding - Belajar Dasar AI
- **Certification** (2023) [🔗](#): Dicoding - Belajar Dasar Pemrograman JavaScript
- **Certification** (2023) [🔗](#): Dicoding - Belajar Dasar Pemrograman Web
